Linguistics and Philosophy
A Journal of Natural Language Syntax, Semantics, Logic, Pragmatics, and Processing

Editor-in-Chief:
Gregory N. Carlson

Associate Editors:
Jeroen Groenendijk, Martin Stokhof, Laurence R. Horn, Pauline Jacobson, William C. Rounds, Erhard Hinrichs, Mark Richard, Scott Soames

Executive Board:
Richmond H. Thomason, Barbara Partee, Robin Cooper

Linguistics and Philosophy is a journal for studies focused on natural language, and is of interest to practitioners in the disciplines covered in the title. Although the field thus described is so extensive that a complete listing of relevant topics is precluded, at least the following specifically fall within it:
- traditional areas in the philosophy of language such as meaning, truth, reference, description, entailment, speech acts - traditional areas of linguistics such as syntax, semantics and pragmatics (when the studies are of sufficient explicitness and generality to be also of philosophical interest)
- aspects of artificial intelligence concerned with language such as computational linguistics and natural language processing
- systems of logic with strong connections to natural language: modal logic, tense logic, epistemic logic, intensional logic
- philosophical questions raised by linguistics as a science: linguistics methodology, the status of linguistics theories, the nature of linguistic universals
- philosophically interesting problems at the intersection of linguistics and other disciplines: language acquisition, language and perception, language as a social convention.

Computational Linguistics is the foremost journal devoted exclusively to computational analyses of natural language.

It encompasses AI research in language, linguistics, and the psychology of language processing and performance. With each issue providing applied and theoretical papers, book reviews, technical correspondence, and letters to the editor, the journal presents a stimulating forum for the exchange of ideas and trends in computational language.

Computational Linguistics is the journal serving a rapidly expanding interdisciplinary field and should be part of every research library collection. Recommend CL to your librarian today.

Published quarterly by The MIT Press for the Association for Computational Linguistics

Journal of Logic, Language and Information

Editor:
Peter Gärdenfors
Dept. of Philosophy, Lund University, Sweden

Section Editors:
D. Gabbay Daniele Mundici Stanley Peters, R. Stalnaker, Johan van Benthem

This is the official publication of the European Association for Logic, Language, and Information. The scope of the journal is the logical and computational foundations of natural, formal, and programming languages, as well as the different forms of human and mechanized inference. It covers the logical, linguistic, and information-theoretic parts of the cognitive sciences. Examples of main subareas are Intensional Logics including Dynamic Logic; Nonmonotonic Logic and Belief Revision; Constructive Logics; Complexity Issues in Logic and Linguistics; Theoretical Problems of Logic Programming and Resolution; Categorial Grammar and Type Theory; Generalized Quantification; Information-Oriented Theories of Semantic Structure like Situation Semantics, Discourse Representation Theory, and Dynamic Semantics; Connectionist Models of Logical and Linguistic Structures. The emphasis is on the theoretical aspects of these areas.

The purpose of the journal is to act as a forum for researchers interested in the theoretical foundations of the above subjects and their interdisciplinary connections, with an emphasis on general ideas increasing coherence.

Journal of Logic, Language and Information is abstracted/indexed in Mathematical Reviews; Current Mathematical Publications; MathSci; Inspec Database; Zentralblatt für Mathematik; Sociological Abstracts; Linguistic and Language Behavior Abstracts; MLA International Bibliography

Samuel Jay Keyser
Editor in Chief

Volume 26 forthcoming
Published quarterly by The MIT Press
ISSN 0024-3892
Natural Language and Linguistic Theory provides a forum for the discussion of theoretical research that pays close attention to natural language data, so as to provide a channel of communication between researchers of a variety of points of view. The journal actively seeks to bridge the gap between descriptive work and work of a highly theoretical, less empirically oriented nature.

In attempting to strike this balance, a primary goal of the journal is to encourage work which makes complex language data accessible to those unfamiliar with the language area being studied, and work which makes complex theoretical positions more accessible to those working outside the theoretical framework under review.

The journal is structured to include:
- theoretically oriented work on the syntax, semantics, phonology and the lexicon of natural language;
- interdisciplinary contributions written with theoretical linguists in mind;
- surveys of recent theoretical developments which facilitate accessibility for a graduate student readership;
- reactions/replies to recent papers;
- brief notes, comments or observations concerning languages or theoretical points;
- letters to the editors;
- book reviews of important linguistics titles;
- special topic issues.

Scope of this Journal
The JOURNAL OF SEMANTICS publishes articles, notes, discussions, and book reviews in the area of natural language semantics. It is explicitly interdisciplinary, in that it aims at an integration of philosophical, psychological, and linguistic semantics as well as semantic work done in artificial intelligence and anthropology. Contributions must be of good quality (to be judged by at least two referees) and should relate to questions of comprehension and interpretation of sentences or texts in natural language. The editors welcome not only papers that cross traditional discipline boundaries, but also more specialized contributions, provided they are accessible to and interesting for a wider readership. Empirical relevance and formal correctness are paramount among the criteria of accept- ance for publication.

Information for Authors
Papers for publication should be submitted in 3 copies to the managing editor. They should be typed on A4 (or similar format), one-sided, double-spaced, and with a wide margin and must be accompanied by an approx. 200 word summary. Notes and bibliographical references must appear at the end of the typescript. All bibliographical references in the text by author's surname and year of publication. Diagrams must be submitted camera-ready. All papers submitted are subject to anonymous refereeing and are considered for publication only on the assumption that the paper has neither as a whole or in part already been published elsewhere nor has elsewhere been submitted or accepted for publication. Unless special arrangements have been made, copyright rests with Oxford University Press. Authors receive 20 offprints of their published articles and 10 offprints of their published reviews, free of charge. Larger numbers can be supplied at cost price by advance arrangement.

Subscriptions
The Journal of Semantics is published quarterly.
Institutional: UK and Europe £66.00; USA and Rest of World US$120.00. (Single issues: UK and Europe £19.00; USA and Rest of World US$35.00.)
Personal:* UK and Europe £32.00; USA and Rest of World US$61.00. (Single issue: UK and Europe £9.00; USA and Rest of World US$17.00.)
* Personal rates apply only when copies are sent to a private address and payment is made by personal cheque/credit card.
Prices include postage by surface mail or, for subscribers in the USA and Canada by Airfreight or in Japan, Australia, New Zealand and India by Air Speeded Post. Airmail rates are available on request.
Back Issues. The current plus two back volumes are available from the Oxford University Press, Walton Street, Oxford OX2 6DP. Previous volumes can be obtained from Dawsons Back Issues, Cannon House, Park Farm Road, Folkestone, Kent CT19 5EE, tel +44 (0)1303 850400, fax +44 (0)1303 850440. Volumes 1-6 are available from Swets and Zeitlinger, PO Box 830, 2160 SZ Lisse, The Netherlands.

Order Information
Payment is required with all orders and subscriptions are accepted and entered by the volume. Payment may be made by cheque or Eurocheque (made payable to Oxford University Press), National Girobank (account 500 1056), Credit cards (Access, Visa, American Express, Diners Club), or UNESCO coupons.
Please send orders and requests for sample copies to the Journals Subscriptions Department, Oxford University Press, Walton Street, Oxford, OX2 6DP, UK. Telex 837330 OXPRES, Tel +44 (0)1865 267907.

Advertising
Advertisements are welcome and rates will be quoted on request. Enquiries should be addressed to Jane Parker, Advertising Sales Manager, Oxford University Press, Walton Street, Oxford OX2 6DP, UK. Tel: +44 (0)1865 50767 Fax: +44 (0)1865 267782.
